

Muhammad Iqbal

MOBILE DEVELOPER

Profile

Experienced Mobile Developer with 4+ years of expertise in building native Android and cross-platform applications using Kotlin, Java, and Flutter. Proven track record in delivering scalable, user-focused apps—many of which were government-related projects. Skilled in modern architectures (MVVM/MVP), RESTful APIs, state management, and CI/CD. Passionate about clean code, performance optimization, and staying current with mobile technology trends.
